

Identification

PubMed/MEDLINE 2025 annual baseline
(release files 0001–1274) + daily updates
through 8 August 2025

Records identified via robotic surgery
MeSH + free-text search

Screening

Records assessed for inclusion
(PublicationType filter applied)
n = 2,361

Excluded: publication year
outside 2001–2025
n = 124

Records with publication year
2001–2025
n = 2,237

Country attribution

Country identified from author affiliation
(case-insensitive substring match against
curated 47-country normalization dictionary)
n = 2,025

No affiliation-based country match
(n = 212)
• Recovered via MedlineJournalInfo/
Country fallback: n = 207
• Excluded: no country identifiable
(n = 5)

Trials with assignable country
(2,025 from affiliation + 207 via fallback)
n = 2,232

Included in analysis

Final analytic cohort
2,232 trials
2,777 country-trial participations
47 distinct contributing countries

Income-tier classification:
2,777 / 2,777 (100%) participations
assigned an income tier under
time-varying WB classification
(OGHIST 1987–2021, forward-filled
through 2025)
